Diagnose Predict Grow

A strategic planning program for a Leader and their direct reports to stay ahead of their company's (or business unit's) growth curve by taking an honest look at their people, profit and process.

- Through the process a Leader and their team **DIAGNOSE** the origin of current challenges
- **PREDICT** what is coming down the road through the Stages of Growth
- **GROW** through strategic initiatives that solve challenges with adaptability

FACES

The inescapable roles of a leader: Visionary, Manager, Specialist. Faces change in priority as you grow.

STYLES

The way in which growth is encouraged. Different styles can vary in helpfulness at given stages.

MODALITIES

The degree and manner of direct or indirect influence a leader applies to manifest the company's goals.

INTRINSICS

The competencies, behavioral styles, motivators, and acumen the leader and his team leverage for success.
